### About Andreea

Andreea Sitaru is a highly accomplished Corporate Attorney with more than seven years of post-qualification experience advising on complex US, UK and global corporate transactions. With a practice spanning mergers and acquisitions, private equity real estate investments, joint ventures, and corporate restructurings, capital markets, Andreea brings high-level, multi-jurisdictional insight to every transaction she handles.

Having collaborated with top-tier law firms in the City of London and now based in Los Angeles, Andreea is a practicing corporate attorney in both jurisdictions, and thus fluent in the corporate legal frameworks of both the United States and the United Kingdom. She routinely guides clients through the nuances of cross-border deal execution, bridging regulatory standards, aligning transaction structures, and translating jurisdictional differences to deliver seamless, commercially sound outcomes.

Andreea's experience includes leading multimillion-dollar asset and stock acquisitions, advising on capital markets transactions, and handling corporate governance, ESG compliance, data protection, and commercial contract matters for multinational enterprises. She has a strong background in drafting and negotiating a wide range of transactional documents, including stock/asset purchase agreements, operating agreements, joint venture agreements, subscription agreements, disclosure schedules, and investment documentation. Her transactional leadership is complemented by extensive due diligence management and a proven ability to steward high-value deals under demanding timelines and different time zones.

Since the start of her legal career in 2012, Andreea has advised clients in industries such as global transportation, food and entertainment, manufacturing, global technologies, real estate, mining, aviation, global manufacturing, beauty and fashion. She is known for her meticulous execution, drive to success, strategic clarity, and proactive relationship management—earning repeat and long-term engagements from clients navigating sophisticated corporate matters.

With a First-Class Honors LL.B. degree (US GPA equivalent – 4.0) and dual qualification in both the US and the UK, Andreea leverages her global legal foundation to help clients drive growth, mitigate risk, and close transactions with confidence.
